Nonogram

Reveal a hidden picture by filling in squares in the grid.
All you have to do is decide whether to fill a square or leave it blank.
The only clues are the numbers at the end of each row and column.
These tell you how many consecutive squares are to be filled in, in order.

					2	2 6 1	5 7 1	12 1	5 2 2	2 2 1 4	1 2 2 3	3	4	5	5	4	1 3	1 2 2 3	3 2 1 4	6 2 2	13 1	4 8 1	1 7 1	2
			2	4																				
			6	7																				
			4	4																				
	3	1	1	3																				
			5	4																				
			3	4																				
			2	3																				
			3	3																				
	4	2	2	4																				
			8	8																				
		3	8	3																				
		5	4	5																				
		6	2	6																				
1	2	2	2	1																				
4	2	2	2	4
